DEMO MODE FOR OVENS WITH USER INTERFACE TFT MATRIX

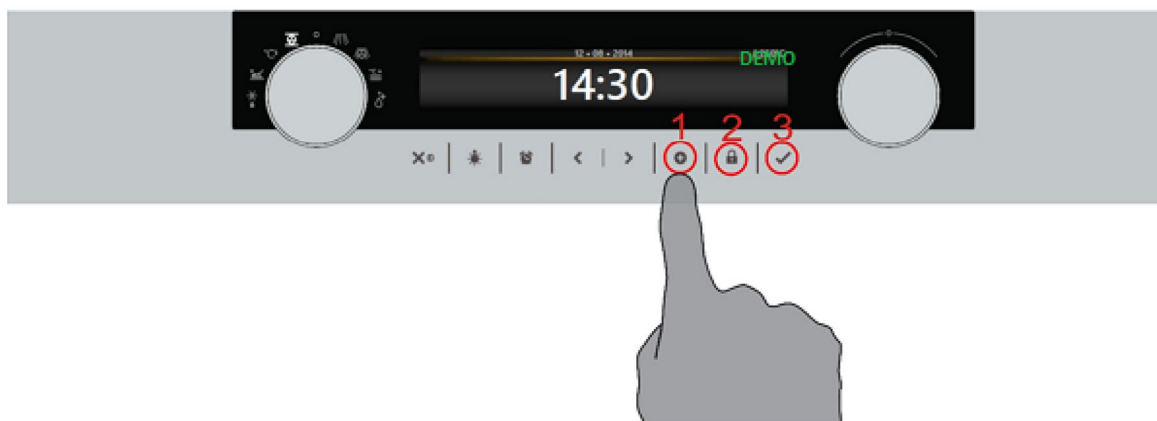

DEMO mode can be activated 30sec after connection appliance on the power supply. At first you should enter in stand-by mode with press on the ON/OFF sensor - display shows time of day.

Activation of DEMO mode:

1. With presses on buttons PLUS/LOCK/OK you enter in DEMO mode.

2. In the upper-right corner of the display appears "DEMO".

Deactivation of DEMO mode:

1. You can deactivate the DEMO mode any time by the same procedure as it is activated. Before deactivation you should be placed in stand-by mode - the same as in the activation.
